Volunteer for a Pneumonia Study

You may be eligible if you:

- Are 65 years or older
- Are not a resident of a nursing home
- Do not have a severe chronic condition such as:
  - Cerebrospinal fluid leaks
  - Sickle cell disease
  - Non-functioning spleen
  - HIV/AIDS
  - Chronic dialysis
  - Cancer
  - Transplant

The Purpose of the Pneumonia Study:

- This study will help assess new adult vaccine recommendations to help prevent pneumococcal disease in adults ≥ 65 years of age in the future.

The Study Involves:

- A sample from your nose and throat collected with a swab, similar to a Q-tip
- Urine sample
- A 15 minute questionnaire
- Compensation: $25
